

## CUA20715 Certificate II Visual Arts (Photography)

This qualification is delivered over one year under the auspices of Skills Strategies International Pty Ltd (RTO Code 2401)

### What is Visual Arts (Photography) all about?

This course has been developed to guide you towards building your own design/photographic style utilising both Practical and theory components. This course is designed to introduce basic and intermediate design skills specific to digital photography, as well as providing an interactive practical environment exploring a wide range of digital photography skills and techniques. In this course you will develop basic camera controls, experiment with lighting, create digital design layouts for real world clients, explore a range of photography styles, develop skills in setting & using studio photography equipment and plan and execute a location based photoshoot

### Career Pathways

Suited to students interested in further studies in creative industries such as Photography, digital media, graphic design, print & web design.
